"Djezzy is Algeria's principal mobile network operator, with over 17 million subscribers and more than 95% coverage as of end of 2015. The company offers a wide range of prepaid and postpaid mobile communication and Internet services. Djezzy was a subsidiary of the Egyptian company Global Telecom Holding. In 2014 the Algerian state bought 51% of it. Today, Djezzy is part of the VEON group (previously Vimplecom)- the fifth largest international communications group."

"BBI. Founded in 2009, BBI is a global information technology consultancy firm serving enterprise businesses in a diverse range of industries. From digital strategies to applications services to big data management and analytics, we've worked with our clients to survive today's business disruptions by providing them data driven digital transformation solutions that really make the change happen."
