- Ensuring accurate and near real time revenue booking and no finance management reporting as well as supporting Revenue Assurance and Fraud Management

Jawwy is a new mobile plan from STC.
It's digital-first, works off an app, and customers can personalize, monitor and manage their plan in real time. With the help of Saudi youth, we've taken a human-centered approach to designing our service & experience.
And we've used digital technology to offer completely new ways of becoming aware and knowing more, buying and receiving, using and managing, and being cared for. Finally, we've simplified pricing and offers, minimizing waste and maximizing value for our customers. If you consider all of this, Jawwy represents real experience innovation in the telecoms category. It's the first service of its kind in the MENA region.

"BBI. Founded in 2009, BBI is a global information technology consultancy firm serving enterprise businesses in a diverse range of industries. From digital strategies to applications services to big data management and analytics, we've worked with our clients to survive today's business disruptions by providing them data driven digital transformation solutions that really make the change happen.''
