- Concert experience on dealing with a big data volume and performance

Results / Benefits

- Implementation to upgrade from windows to Unix
- Improve the Application performance
- Convert the Windows scripts to Shell script
- Provide solutions to configure the required connections on Unix
- Prepare User Guide document for Processes operation
- Provide development recommendation and best practice

"Emirates NBD is one of the largest banking groups in the Middle East in terms of assets. was formed on 19 June 1963, when H.H. Late Sheikh Rashid bin Saeed Al Maktoum signed the Charter of Incorporation of the National Bank of Dubai (NBD) which became the first national bank established in Dubai and the United Arab Emirates (UAE), NBD merged with Emirates Bank International (EBI) on 06 March 2007, to form Emirates NBD, the largest banking group in the region by assets. On 16 October 2007, the shares of Emirates NBD were officially listed on the Dubai Financial Market (DFM). The merger between EBI and NBD to create Emirates NBD, became a regional consolidation blueprint for the banking and finance sector as it combined the second and fourth largest banks in the UAE.
